

Samantha Drummond

For over 15 years, Samantha has helped design integrated resorts that have proved game-changing for their country, including Marina Bay Sands in Singapore, Solaire Resort & Casino, Manila and Cotai Central in Macau. In the process, she has collaborated with architects and artists, chefs and luxury brands to deliver remarkable guest experiences.

Samantha has also used her profound understanding of design to revive the fortunes of restaurants and bars, as well as create new dining destinations, around the world. In 2016, she established her own interior design company, Habitus Design Group, to complement the skill sets of the hospitality designers with whom she continues to work.

Title:	Hospitality Design Strategist
